

Website Project Notes

IntiEdge Partners Inc. — everything learned from the client files, discovery notes, and design direction.

Client	Shelly Moffat (Nasution-Moffat), EMBA - Founder & Principal
Business	IntiEdge Partners Inc. - finance, operations & AI advisory
Location	London, Ontario, Canada
Contact	shelly@intiedge.com 1-226-678-3324
Web / Social	www.intiedge.com linkedin.com/in/shellymoffat
Prepared by	Web design & development (Stuart) - June 11, 2026

1. The Business

IntiEdge Partners Inc. is a solo consulting practice founded by Shelly Moffat. The name comes from **"inti" = core** (captured in the discovery meeting notes) - the firm works on the core of a business: finance, operations, and the systems that connect them. The tagline is **"Purposeful Growth."**

Positioning (from the brand playbook): **Finance Leadership • Operational Excellence • AI-Enabled Growth.** The site should feel like **60% executive advisory, 25% technology/AI, 15% finance** - deliberately NOT a traditional accounting firm. Reference brands named in the playbook: Deloitte Private, McKinsey, fractional-CFO / executive advisory firms.

Core differentiator

"Unlike many consultants who provide recommendations and leave, IntiEdge combines strategic advice with hands-on execution." Advise + implement, across finance + operations + technology + AI + people - most advisors specialize in only one of these.

Three service pillars

Finance Leadership & CFO Advisory	Operations & Process Improvement	AI-Enabled Business Transformation
Fractional CFO Interim Controller Financial Reporting & Analysis Budgeting & Forecasting Cash Flow Management KPI Development & Dashboards Audit & Governance Support	Process Mapping & Optimization Workflow Redesign Organizational Effectiveness Performance Management Operational Reporting Business Scalability	AI Readiness Assessment Reporting Automation AI-Assisted Financial Analysis Process Documentation Knowledge Management Workflow Automation ERP & Systems Optimization

Target clients - two distinct audiences

	Audience A - Executive / Mid-Market	Audience B - Small Business Owner
Who	CEOs, Presidents, CFOs, boards, PE-owned companies	Owner-operators of growing small businesses
Tone	Professional, corporate, credentialed	Plain-spoken, relatable, low-pressure
Lead message	"Helping growing organizations improve profitability,"	"Being like your business and having the systems to manage as it grows"
Pain points	Limited performance visibility; inefficient processes; No growth planning systems & insights; slow reports, manual	Not understanding systems & insights; not profitable; slow reports, manual

Key design tension from our June 10 call: the site must feel **approachable to small businesses while remaining credible to large/corporate buyers**. The discovery notes phrase it as “modern/sophisticated but small businesses can relate.”

2. The Founder - Shelly Moffat, EMBA

Full name Shelly Nasution-Moffat; brand materials use **Shelly Moffat, EMBA** (playbook explicitly says EMBA, not MBA - she graduates from Ivey Business School in 2026). Position her as: “Executive MBA graduate, senior finance and operations leader, and founder of IntiEdge Partners Inc.”

Career snapshot (from the three resumes)

Experience	15+ years across SaaS, logistics, manufacturing, construction, retail, professional services,
Most recent	Director of Finance, InvestorCOM Holdings ULC (May 2024 - Jan 2026)
Prior roles	Financial Controller, MAC Group (10 operating cos.); Controller, Ingersoll Products; Accountant, ...
Education	EMBA, Ivey Business School (2026); BA Sociology, Western; BA Economics, Univ. of Trisla
Certifications	CHRL, PCP, CDP, Mental Health for HR, JHSC I & II
Technology	Sage Intacct, QuickBooks, MS Dynamics/NAV, Power BI, BambooHR, ADP, Ceridian, Strip

Proof points worth surfacing on the website

- Cut invoicing cycle time 65% and AP processing time 50% through automation (InvestorCOM).
- Reduced OPEX 14% at a manufacturer (Ingersoll Products).
- Unified reporting across 10 operating companies with Power BI dashboards (MAC Group).
- Secured SR&ED; and CanExport government funding.
- Administered payroll for 200+ employees; full-cycle accounting + HR for seven entities.

Personal purpose statement

“Lead with kindness, grow continuously, and elevate people and organizations through purposeful leadership.” - this is where the “Purposeful Growth” tagline comes from, and it should inform the warm, human side of the About page.

Three resume variants exist (strategy / finance / operations angles) - useful as source copy for service-specific credibility, not for publishing wholesale.

3. Brand Identity

Official colours (confirmed with Stuart, June 11: use this palette - the playbook also contains an older draft palette that is superseded)

Role	Name	HEX	Usage
Primary	IntiEdge Navy	#0B2A63	"Inti" wordmark, logo circles, tagline, headings
Secondary	IntiEdge Teal	#118DA3	Capital "E", highlights
Accent	IntiEdge Blue	#148EEA	"dge" wordmark, right-side logo bars, CTAs - THE blue to keep
Gradient	Teal to Blue	#118DA3 → #148EEA	Buttons, accent lines, CTA sections, icons

Role	Name	HEX	Usage
Background	White / Light Gray	#FFFFFF / #F5F7FA	Page background / alternating sections
Text	Dark	#1A1A1A	Body text
Divider	Light blue-gray	#DCE5F0	Section dividers

Typography

- Logo: geometric sans-serif; closest match **Montserrat SemiBold/Bold** (free Google font).
- Tagline: Montserrat Medium, ALL CAPS, letter-spacing +250 to +300.
- Website pairing: **Montserrat Bold headings + Open Sans (or Source Sans Pro) body**.

Brand personality

Professional + Modern + Strategic + Approachable + Technology-enabled. NOT: corporate bureaucracy, accounting firm, startup-gimmicky.

Logo notes

- Circular mark: navy C-form ring + navy core dot, with teal-to-blue horizontal bars forming the right half (an abstract E). Wordmark: "Inti" navy, "Edge" teal-to-blue gradient.
- Supplied logo.png sits on an off-white background (not transparent) - needs background removal or careful placement on light surfaces for web use.

4. Website Plan (from the brand playbook)

Navigation: **Home · Services · Approach · About Shelly · Why IntiEdge · AI Enablement · Contact**

Page	Planned content
Home	Headline: "Transforming Finance, Operations, and Growth Through Practical Expertise and AI-Enabled Innovation"
Services	Three pillars with service lists (see section 1).
Approach	4-phase methodology: 1) Discover & Assess (wks 1-2), 2) Design & Prioritize (wks 2-4), 3) Implement & Enable (wks 4-6), 4) Measure & Optimize (ongoing)
About Shelly	EMBA positioning, 15+ years, industries served, professional photo (photos/proposal.jpeg), purpose statement.
Why IntiEdge	The bridge story: Finance + Operations + Technology + AI + People & Process - most advisors specialize in one or two
AI Enablement	Dedicated page, strongly recommended in playbook. Title: "AI for Practical Business Results." Message: AI is not a magic wand, it's a tool.
Contact	Large CTA: "Let's Start the Conversation" with button "Book a Discovery Call." 30-minute complimentary discovery call

Website goals (from handwritten discovery notes)

- Generate leads and build credibility.
- Book complimentary meetings - mention "30 min complimentary" explicitly.
- Possible online payment capability (raised with a question mark - confirm scope).
- Personalized / shows personality; testimonials wanted.
- Scalable as the business grows.
- Emails go to the company email; quotes/invoices to the company; ads for the website as marketing were discussed.

5. Pricing & Engagement Model

From marketing/feestructure.png - shared with prospects only after a project is discussed; decide deliberately whether pricing appears on the public site (see section 8).

Hourly advisory rates

Service	Rate
Advisory / Consulting	\$175 - \$225 / hour
Fractional CFO / Interim Controller	\$150 - \$200 / hour
Operations Advisory	\$175 - \$225 / hour
AI & Process Transformation	\$175 - \$225 / hour
Recommended starting rate	\$195 / hour

Monthly retainers (fractional finance leadership)

Package	Monthly fee	Includes
Essential	\$2,500 - \$3,500	Monthly meetings, reporting review, email support, up to 5 hrs advisory
Growth	\$4,000 - \$6,000	Essential + budget & forecast support, KPI monitoring, up to 10 hrs
Strategic	\$7,500 - \$10,000+	Growth + strategic planning, board reporting support, up to 20 hrs

Fixed-fee projects

Project	Investment range
Finance Transformation Assessment (review + 90-day roadmap)	\$2,500 - \$4,000
KPI & Dashboard Development	\$3,000 - \$7,500
Process Improvement Review	\$2,500 - \$5,000
AI Readiness Assessment	\$2,500 - \$5,000

Value line used in collateral: "You're not just paying for time. You're investing in expertise, experience, and results that drive your business forward." Engagement models: hourly (ad-hoc), fixed-fee (defined deliverables), retainer (ongoing), fractional leadership (part-time executive).

6. Sales Process & Existing Collateral

A consultative sequence (recommended by "Sandra" in the playbook) that the website should mirror - lead with problems and conversation, reveal capability and pricing progressively:

Stage	Material	File
1. First touch	One-page sales brochure (per audience)	brochures/executive.*, brochures/smallbusiness.*
2. Interest established	General Advisory capability statement	services/advisory.png
3. Targeted proposal	Finance Leadership & CFO Advisory one-pager	services/cfo.png
3. Targeted proposal	Operations & Growth one-pager	services/operations.png
4. After discovery	Engagement timeline / roadmap	marketing/timeline.png
5. After project discussion	Fee structure & engagement options	marketing/feestructure.png

Supporting items: Vistaprint business cards (curved navy/blue wave motif), branded email signature (name, title, three service areas, contact row). Recurring footer mantra across collateral: **"Clarity. Strategy. Execution. Results that matter."** Recurring trust markers: practical insights, hands-on execution, measurable results, trusted partner.

7. Design Direction for the Mockups

From the June 10 client call

- Establish **approachability for small businesses** while looking **professional/credible for big businesses**.
- Keep the IntiEdge Blue (#148EEA) and official palette.
- Use her existing logo. No emojis anywhere in the designs.

Reference sites the designer (Stuart) likes

Site	What to take from it
bcg.com/canada	Bold editorial hero, confident typography, insight-led content hierarchy
protiviti.com/ca-en	Clean corporate polish, strong service taxonomy, calm blue palette
slalom.com/us/en	Warmer, human, photography-forward consulting feel - approachable end of the spectrum
bain.com	Premium restraint, results-first messaging, authoritative simplicity

Mockup plan (agreed with Stuart, June 11)

- 10 distinct homepage styles, delivered as self-contained HTML files.
- Official palette anchors every style; structure and layout MAY vary per style (confirmed: structural variation allowed).
- Range deliberately spans corporate-formal to warm-approachable so Shelly can pick where on the spectrum IntiEdge sits.

8. Open Questions, Gaps & Risks

To confirm with Shelly

- Online payments: in scope for v1? (Raised with a question mark in discovery notes; invoices currently go to the company.)
- Testimonials: she wants them, but none exist in the files yet - need 2-3 client quotes, even informal ones.
- Booking mechanics: which calendar tool for "Book a Discovery Call" (Calendly, MS Bookings, etc.)?
- Domain/email: intiedge.com is referenced everywhere - confirm it is registered and where DNS/hosting will live.
- Publish pricing or keep it sales-collateral only? Collateral sequence implies keeping it off the public site.
- Name presentation: resumes say "Shelly Nasution-Moffat"; brand materials say "Shelly Moffat." Confirm public name.
- "10+ solutions" and "general industry... contract" in the handwritten notes are ambiguous - clarify on next call.

Asset gaps / risks

- Logo file is low-resolution PNG on an off-white background - no vector (SVG/AI) or transparent version supplied. Recommend recreating as SVG before launch.
- Both headshots appear AI-generated or heavily retouched and differ from each other; for a trust-based personal brand, a real photo session is strongly recommended.
- No favicon, no social/OG images, no case studies, no written client results yet.
- She "doesn't know her audience" yet (discovery notes) - the dual-audience design must avoid splitting focus so much that neither audience converts.
