EXECUTIVE SUMMARY

Finance and operations leader with 15+ years of experience building scalable systems, strengthening governance, and translating strategy into disciplined execution across complex, multi-functional organizations.

Known for bringing structure to fragmented or fast-evolving environments, establishing performance reporting and decision frameworks, and cross-functional alignment that enable clarity, accountability, and scalable growth.

Experienced in leading finance and operational functions during periods of growth, transition, and change, strengthening governance, reporting discipline, and organizational accountability across complex environments.

OPERATING LEADERSHIP & EXECUTION

- Designed and implemented operating frameworks aligning strategy with execution, including performance reporting structures, reporting cadence, and decision pathways
- Established cross-functional alignment across Finance, HR, IT, and Operations to improve accountability and delivery consistency
- Built scalable systems and processes in high-growth environments, reducing reliance on ad hoc decision-making
- Led organizational transformation initiatives including automation, ERP implementation, and performance management systems
- Strengthened governance, internal controls, and compliance frameworks to support sustainable scaling
- Partnered closely with executive leadership to strengthen operational accountability, governance, and execution discipline

PROFESSIONAL EXPERIENCE

Director of Finance

InvestorCOM Holdings ULC | Remote, ON | May 2024 – January 2026

Led finance and operations within a complex multi-entity environment, strengthening governance, reporting discipline, and operational alignment across Finance, HR, IT, and Operations. Built scalable financial and operational infrastructure to support growth, improve reporting accuracy, and enhance organizational accountability during a period of transformation and change.

Operating Leadership & Execution

- Partnered closely with the CEO and leadership team to improve execution discipline, operational accountability, and organizational visibility.
- Led and developed finance and operational staff, supporting accountability, continuity, and team effectiveness during organizational transition.
- Established structured reporting cadence, planning processes, and performance tracking frameworks supporting strategic priorities and operational consistency.
- Improved cross-functional coordination and execution across Finance, HR, IT, and Operations.
- Supported organizational restructuring and operational transition initiatives while maintaining governance and continuity.

Systems & Process Improvement

- Led implementation of Sage Intacct and SaaS Intelligence to improve financial visibility, scalability, and reporting efficiency.
- Automated finance workflows, reducing invoicing cycle time by 65% and AP processing time by 50%.
- Introduced procurement and contract management controls to strengthen spend discipline and reduce vendor risk.

Finance & Reporting

- Led business planning, forecasting, month-end and year-end close, and operational reporting processes supporting timely and accurate financial reporting.
- Developed forecasting models, scenario analysis, and reporting frameworks supporting executive decision-making and long-term planning.
- Supported governance, financial reporting, and compliance processes within IFRS-aligned reporting environments.
- Contributed to operational transition initiatives, process improvements, and organizational change efforts.

Shelly Nasution-Moffat

Key Achievements (*Director of Finance – InvestorCOM cont'd*)

- **Revenue Visibility:** Unified forecasting and operational reporting data to improve decision-making visibility and planning accuracy.
- **Automation & Efficiency:** Reduced invoicing cycle by 65% and AP processing time by 50% through automation, reallocating savings to fund transformation.
- **Strategic Procurement:** Introduced enterprise-wide PO and contract-management controls, reducing vendor risk and spend leakage.
- **Tax Optimization:** Secured SR&ED and CanExport funding to advance innovation and international expansion.
- **Enterprise Impact:** Acted as Finance and Operations lead, embedding financial discipline and accountability across functions.

Financial Controller

MAC Group of Companies | London, ON | May 2022 – May 2024

Multi-entity construction, distribution, and property management firm | 10 operating companies

Partnered with ownership to drive growth planning, capital investments, and performance management through enhanced governance and analytics.

- Designed unified financial reporting, Power BI dashboards, and performance reporting structures across 10 subsidiaries.
- Integrated Finance, HR, IT, and H&S into a more unified operational structure supporting organizational growth.
- Led capital-investment planning, cost-optimization, and ERP utilization to support growth and risk management.
- Implemented internal controls and policy frameworks enhancing audit readiness and data integrity.
- Coordinated audit preparation, supporting schedules, and financial reporting processes to improve audit readiness and reporting integrity.

Results: Strengthened cash-flow forecasting, improved profitability through cost-benefit analysis, and fostered a culture of accountability and operational excellence.

Controller

Ingersoll Products Inc. | Ingersoll, ON | Apr 2020 – Apr 2022

Manufacturing sector.

- Rebuilt accounting structure and SOPs to restore reporting accuracy and fiscal control.
