EXECUTIVE SUMMARY

Business operations leader with 15+ years of experience driving operational excellence, organizational effectiveness, and scalable growth across SaaS, manufacturing, logistics, construction, and professional services environments.

Proven track record leading finance operations, people operations, systems implementation, process improvement, and cross-functional execution in fast-paced and evolving organizations. Experienced in supporting executive leadership through operational planning, budgeting, vendor management, governance, compliance, and business process optimization.

Recognized for bringing structure to complex environments by building scalable systems, improving workflows, and aligning Finance, HR, IT, and Operations around shared organizational priorities. Combines strategic thinking with hands-on execution to deliver operational continuity, accountability, and sustainable business outcomes.

BUSINESS OPERATIONS LEADERSHIP

- Led cross-functional business operations initiatives across Finance, HR, IT, and Operations, improving organizational effectiveness and execution consistency
- Designed and implemented operating frameworks, reporting structures, and governance processes that strengthened accountability and decision-making
- Built scalable systems and operational processes supporting growth, employee experience, and organizational continuity
- Partnered with executive leadership to support operational planning, resource allocation, and business priorities
- Led organizational change initiatives while maintaining operational stability and team engagement
- Strengthened compliance, controls, and documentation processes supporting sustainable growth

PROFESSIONAL EXPERIENCE

Director of Finance

InvestorCOM Holdings ULC | Remote, ON | May 2024 – January 2026

Led finance, people, and business operations activities during organizational restructuring, ensuring continuity across systems, processes, vendors, and employees. Partnered with executive leadership to support budgeting, forecasting, investment planning, and enterprise decision-making. Built scalable operating and financial infrastructure supporting complex multi-entity operating environments. Led cross-functional transformation initiatives integrating Finance, HR, IT, and Operations. Improved operational efficiency, reporting accuracy, and governance across multiple organizations. Developed and scaled teams while fostering accountability, performance, and collaboration.

Operating Leadership & Execution

- Led cross-functional transformation initiatives focused on operational effectiveness, organizational scalability, and performance improvement across Finance, HR, IT, and Operations
- Designed and implemented operating frameworks that aligned strategic priorities with execution, improving accountability, decision-making clarity, and organizational coordination
- Built scalable systems, governance structures, and reporting processes that strengthened operational discipline and reduced reliance on reactive decision-making
- Partnered closely with executive leadership to support strategic planning, organizational restructuring, change management, and enterprise-wide transformation initiatives
- Led ERP implementation, workflow redesign, automation initiatives, and process modernization efforts to improve efficiency, transparency, and scalability
- Developed performance reporting frameworks and operational dashboards that supported strategic decision-making and long-term planning
- Facilitated cross-functional alignment across departments to improve execution consistency, communication, and operational performance in complex and evolving environments
- Strengthened internal controls, operational governance, and organizational processes to support sustainable growth and execution discipline

Shelly Nasution-Moffat

(Director of Finance – InvestorCOM cont'd)

Budget Planning & Investment Governance

- Led annual budgeting, forecasting, and scenario-planning processes to support executive decision-making and resource allocation
- Developed best-case, base-case, and downside forecasts to support investment prioritization and business planning
- Established governance and reporting processes that improved visibility into operational spending and strategic initiatives
- Provided executive reporting and performance analysis supporting budget management and organizational performance

Finance & People Operations

- Oversaw finance operations including budgeting support, payroll coordination, AP workflows, reporting, and vendor management
- Supported onboarding, employee programs, benefits administration, and people operations initiatives in partnership with leadership
- Managed relationships with external service providers, consultants, and technology vendors to support operational continuity
- Partnered with executive leadership to coordinate cross-functional priorities, documentation, and organizational initiatives

Systems & Process Transformation

- Led implementation of enterprise systems and reporting infrastructure to improve operational visibility, scalability, and decision-making effectiveness
- Automated and redesigned operational workflows, significantly improving process efficiency and reducing reliance on manual processes
- Established governance and procurement controls that strengthened operational discipline, accountability, and enterprise-wide coordination
- Improved reporting accuracy, process consistency, and operational transparency through systems integration and workflow standardization

Strategic Transformation & Business Operations

- Led enterprise planning and operational transformation initiatives supporting organizational scalability, execution discipline, and executive decision-making
- Developed scenario analyses, operating models, KPI frameworks, and performance reporting structures to support strategic priorities and enterprise visibility
- Supported organizational restructuring, workflow redesign, and systems modernization initiatives across multiple business functions
- Improved operational coordination and execution alignment across departments by establishing structured planning, governance, and performance management processes
- Partnered with leadership teams to strengthen organizational accountability, operational effectiveness, and scalable execution in high-growth environments

Key Achievements

- **Revenue Visibility:** Unified forecasting and operational reporting data to improve decision-making visibility and planning accuracy.
- **Automation & Efficiency:** Reduced invoicing cycle by 65% and AP processing time by 50% through automation, reallocating savings to fund transformation.
- **Strategic Procurement:** Introduced enterprise-wide PO and contract-management controls, reducing vendor risk and spend leakage.
- **Tax Optimization:** Secured SR&ED and CanExport funding to advance innovation and international expansion.
- **Enterprise Impact:** Acted as Finance and Operations lead, embedding financial discipline and accountability across functions.

Financial Controller

MAC Group of Companies | London, ON | May 2022 – May 2024

Multi-entity construction, distribution, and property management firm | 10 operating companies

Partnered with ownership to drive growth planning, capital investments, and performance management through enhanced governance and analytics.

- Led operational integration and organizational alignment initiatives across 10 operating entities to improve visibility, coordination, and execution consistency

Shelly Nasution-Moffat

(Financial Controller – MAC Group cont'd)

- Designed enterprise reporting frameworks and performance management structures that strengthened decision-making and organizational accountability
- Supported strategic growth and capital planning initiatives through operational analysis, governance improvements, and scalable process design
- Integrated Finance, HR, IT, and operational functions into a more unified operating structure supporting organizational scalability and performance improvement
- Strengthened governance frameworks, internal controls, and operational processes to improve organizational discipline and support sustainable growth

Results: Strengthened cash-flow forecasting, improved profitability through cost-benefit analysis, and fostered a culture of accountability and operational excellence.
